# SMARTCAM – PROFESSIONAL STEADYCAM SYSTEM

## ARM X1

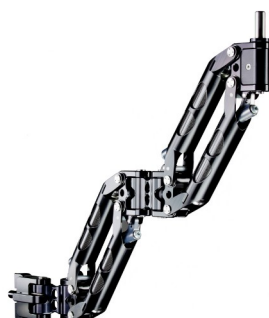

Professional steadycam mechanical arm.  
Entirely made of aluminum 7075 (Ergal), 2014 (Avional) and carbon fiber, it weighs only 4.2 kg.  
With its thickness of 45mm it's one of the thinnest steadycam arms on the market.  
Extended range: from 2 kg to 30kg thanks to its interchangeable cartridge system.  
Boom range: up to 780mm.

Thanks to the innovative X-Tune System it is possible to change the arm's dynamic response on the strength of the operator's needs: the operator has not to adapt himself to his arm, but is the arm that will adapt itself to the operator's needs.

Every SmartSystem arm and accessories are compatible with all the steadycam standards.

## ARM X-LITE

Professional steadycam mechanical arm.  
Entirely made of aluminum 7075 (Ergal) and 2014 (Avional) and carbon fiber, it weighs only 4.2 kg.  
With its thickness of 45mm it's one of the thinnest steadycam arms on the market.  
Extended range: from 0.5 kg to 14kg thanks to its interchangeable cartridge system.  
Boom range: up to 780mm.

## MATRIX SLED

Professionale steadycam sled completely “tool free”.  
40 mm post made of prime carbon fiber. The gimbal, characterized by an incredible smoothness and precision is provided with an innovative locking clamp that minimize the necessary power for fixing.  
Matrix Sled is provided with the micrometric head SmartHEAD  
It allows to power the camera with three different voltages.  
Maximum electronical and mechanical compatibility with every professional steadycam equipment on the market.

## CONFIGURAZIONI

Matrix Sled is available in three differet setup.

	BASIC	PRO	EXTREME
Monitor fixing	Arm	Arm	Carbon Rod Kit
Battery pack	Dual	Dual	SmartPACK*
C Battery Kit**	No	Yes	Yes

\* SmartPACK system allows to easily setup the battery power management.

\*\* C Battery Kit grants an higher battery autonomy and setup versatility.

# SMARTCAM – PROFESSIONAL STEADYCAM SYSTEM

## VEST LITE

Professional steadycam vest completely “tool free”

The wearability and the versatility of this vest allows to the operator to work in comfort and safeness, avoiding wrong and dangerous postures.

One size fits all: the great variety of regulations allows to every operator to perfectly adapt the Vest Lite to its build.

The materials used are all technical waterproof and high resistance tissues.

The various parts that compose the vest are detachable and washable separately.

The main structure is made by aeronautical aluminum and AISI3014 steel.

Maximum electronical and mechanical compatibility with every professional steadycam equipment on the market.

# SMARTSLIDER – PROFESSIONAL SLIDING SYSTEM

## SmartSLIDER PRO

Professional slider extremely smooth and strong. One aluminum made rail on which are fixed two chromed steel bars where four inox wheels roll make this slider almost unbreakable.

Every SmartSLIDER PRO is provided with standard fixing holes: 1/4", 3/8" and 5/8" (for stands).

SmartSLIDER PRO is able to sustain up to 25 kg without any bending but has been tested with loads up to 200 kg. Available in three sizes plus a custom version: 560, 680, 800 and 1300 mm of strokes.

SmartSLIDER PRO can be motorized with its own motion kit: **DigiMOTOR PRO**.

### PRICELIST:

	EAN	€	€ з ПДВ
SmartSLIDER PRO 560	8051411190011	704.81	846.00

SmartSLIDER PRO 800	8051411190035	878.72	1054.00
SmartSLIDER PRO 1300	8051411190042	1524.19	1829.19

## SmartSLIDER Reflex S

Professional slider extremely smooth and lite. The rail is composed of two aluminum made bars. The three plastic made wheels roll in the inner part of the bars.

SmartSLIDER Reflex S is provided with a brand new **fluid drag system** patented by SmartSystem.

Every SmartSLIDER Reflex is provided with standard fixing holes: 1/4", 3/8" and 5/8" (for stands).

SmartSLIDER Reflex is able to sustain up to 14 kg without any bending. Available in three sizes: 410, 560 and 800 mm of strokes.

SmartSLIDER Reflex can be motorized with its own motion **DigiMOTOR Reflex**.

SmartSLIDER Reflex S 800	8051411190790	551.37	662.00

# SMARTSLIDER – PROFESSIONAL SLIDING SYSTEM

## SmartSLIDER Reflex

Professional slider extremely smooth and lite. The rail is composed of two aluminum made bars. The three plastic made weels roll in the inner part of the bars.

SmartSLIDER Reflex is provided with a traditional friction (no fluid drag) and has the same performances of its young brother: SmartSLIDER Reflex S

Every SmartSLIDER Reflex is provided with standard fixing holes: 1/4", 3/8" and 5/8" (for stands).

SmartSLIDER Reflex is able to sustain up to 14 kg without any bending. Available in three sizes: 410, 560 and 800 mm of strokes.

SmartSLIDER Reflex can be motorized with its own motion **DigiMOTOR Reflex**.

## DigiDRIVE Basic (V-Lock/AIO)

Professional motion control drive, it grants high precision and smoothness of movement for timelapse or compositing.

It allows to move the motor directly through the controller DigiCONTROL or to upload in the internal memory of the drive real time, time lapse, slow motion and stop motion movement programs and recall them in every movement. Embedded camera shutter control.

Available in two versions: with v-Lock Plate or with embedded li-ion battery.

Can be connected to PC or Mac through USB cable. Software included in price. Firmware upgradable by the customer.

DigiDRIVE Basic is compatible with ever SmartSystem **DigiMOTOR** motion kit.

### PRICELIST:

	EAN	€	€ з ПДВ
DigiDRIVE Basic v-Lock	8051411190332	1021.92	1226.00
DigiDRIVE Basic All-In-One	8051411190745	1226.52	1472.00

## DigiDRIVE Portable

Professional drive for motion control and timelapse (150x50x80 mm). Simple and easy to use, DigiDRIVE Portable is the best choice for the dynamic videomaker and for the timelapser that need smoothness and precision.

Provided with a Li-Ion battery. Average battery life: 8 hours (in timelapse). Can be used in real time, autoloop or timelapse mode.

Embedded shutter control and timelapse management simplified through the brand new function EasyLAPSE.

Can be connected to PC or Mac through USB cable. Software included in price. Firmware upgradable by the customer.

DigiDRIVE Portable is compatible with ever SmartSystem **DigiMOTOR** motion kit.
